26" (measured diagonally)
Integrated REGZA LCDVD TV

REGZA

KEY FEATURES

VIDEO

- New 16:9 Cinespeed™ Panel with Response Time of 8ms or Less
- PixelPure™ Hi-Bit 12 Bit Digital Video Processing
- Built-in Upconverting DVD Player
- Wide 176° Viewing Angle

AUDIO

- SRS® WOW™ (3D, TruBass®, FOCUS®)
- StableSound®

CONVENIENCE

- ATSC/NTSC/QAM Digital Television Tuner
- HDMI™ Digital Input
- PC Input (15 Pin, D-Sub)
- 4-Item Glow Universal Remote[1]

ADVANTAGE TOSHIBA

Cinespeed ™ panel LCD sets provide the lightning fast (8 ms or less) response time required by the most demanding home theater enthusiasts.

PixelPure™ Hi-Bit 12 Bit Digital Video Processing means a smooth transition from dark parts of the picture to light, with over 4,000 steps, for significantly more natural images.

Wide 176° Viewing Angle means everyone in the room can enjoy the show.

Built-in Upconverting DVD Player increases the convenience and decreases the clutter with a simple, slot loaded, full function DVD built directly into the set.

SRS® WOW™ greatly improves audio performance with improved fidelity and wider "sweet spot" for the listener.

HDMI™ Digital Input provides uncompressed digital video and digital audio in one convenient cable for connection from home theater components.

PRELIMINARY SPECIFICATIONS SUBJECT TO CHANGE

TECHNOLOGY & BENEFITS

VIDEO

REGZA Premium LCD Hi Speed Cinespeed™ Panel - LCDs include new panels that offer response times that are among the best in the industry (8ms or less) giving you the response for the most demanding home theater enthusiast.
Hi-Speed PixelPure™ Hi-Bit Digital Video Processing - Using 12-bit picture processing (up to 14 bit internally!), we can create 4096 steps of gradation (steps between the whitest white, to the blackest black). That's an improvement of 16X from our 2005 sets, and will also incorporate improvements in areas such as: real speed progressive scanning, video noise reduction, sharpness, and gamma control to set a new standard for picture quality.
Hi-Speed Viewing Enjoyment - Modern black cabinetry, built-in digital tuning, and HDMI™ means this set is quick to impress and connect
Wide 176° Viewing Angle - Off axis viewing is maximized to allow everyone in the room to enjoy the show.
Built-in DVD Player - For the ultimate in convenience, this has eliminated the clutter and confusion of a separate DVD player. Just simply slip a movie into the slot-loaded player, and the TV does the rest; switching inputs, and starts playing.

AUDIO

StableSound® - reduces unwanted volume fluctuations (eg. during commercials) by keeping volume within set levels, for easier listening.
SRS® WOW™ (3D, TruBass®, FOCUS®) - Greatly improves audio performance with improved fidelity and wider "sweet spot" for the listener.

CONVENIENCE

ATSC/QAM/NTSC Tuner - Allows tuning of off-air, and unscrambled HD cable channels for increased flexibility.
PC Input (15 Pin D-Sub) - For use as a computer monitor for added flexibility.
HDMI™ Digital Input - includes both uncompressed digital video and digital audio in one convenient cable for connections from today's best home theater components.
4-Item Glow Universal Remote - This universal remote will operate your home theater system and is fully backlit for ease of operation at night.
New Improved Black Cabinetry - For the best look, even when the set is turned off, Toshiba has designed a new, black cabinet with integrated bottom speakers
THINC™ RJ-45 Network Capability - Allows access, through an existing home network, to a library of JPEG and MP3 files using only the TV's remote control, even through a connected home theater.

[1]In some cases, the remote control may not operate additional devices or certain features of such devices, in which case, it is suggested that you use the original remote control for the applicable device.

**DVD-R discs recorded by DVD Video method can be played back. Some DVD-R discs may be incompatible due to laser pick-up and disc design. WMA, MP3 and JPEG discs may be incompatible due to different recording format or condition of disc.*
